

CSL in Miami, Florida

As CSL strengthens we are pleased to announce our operational and technical presence in the Miami, Florida area with the appointment of Richard Thompson, Senior Marine Surveyor.

Rick who has in excess of 35 years experience handling various types of marine surveys will be handling surveys in South Florida and adjacent regions. He specializes in all aspects of hull and machinery surveys as well as cargo discharge and loadings.

His experience in hull and machinery includes both commercial vessels and motor yachts, especially the mega-yacht. Rick has extensive knowledge with all types of marine cargo inspections including green coffee, machinery, steel products, etc.

Rick has traveled extensively in the Bahamas, the Caribbean, Mexico, Central America and South America for various principals.
